

Serial No. 10/068,562

Attorney Docket 2162-001

REMARKS

Examiner contends that claims 23, 24 and 28-30 are rejected under 35 USC 103(a) as being unpatentable over Bubbles the fish pediatric aerosol mask in view of Denyer et al. – 6192876.

Examiner contends that claim 26 is rejected under 35 USC 103(a) as being unpatentable over Bubbles the fish pediatric aerosol mask in view of Denyer et al. – '876 and further in view of Chen – 6615832.

Examiner contends that claim 27 is rejected under 35 USC 103(a) as being unpatentable over Bubbles the fish pediatric aerosol mask in view of Denyer et al. – '876 and further in view of Christopher - 6405725.

Applicant has cancelled claim 25 and has amended claim 23 to include the subject matter of claim 25 which Examiner has indicated would be patentable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

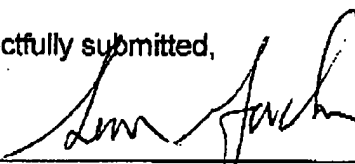

Therefore, Applicant believes that claim 23 as amended and claims 24-30 which depend therefrom are now patentable as they contain the allowable subject matter of claim 25.

Reconsideration of the claims now on file is respectfully requested.
